VoiceWise Biometry Report

Executive Summary: This report harnesses the power of advanced voice-analysis technology to detect dysfunction within the human body. **We run over 1,100 biometric data points** through our computational blueprint in order to conclude the percentage of health for the 5 pillars of health, each organ, and each system. Additionally, the report determines aspects to pay attention to, along with where the cause of imbalance is stemming from and whether it is more from physical or emotional factors.

Report Terminology

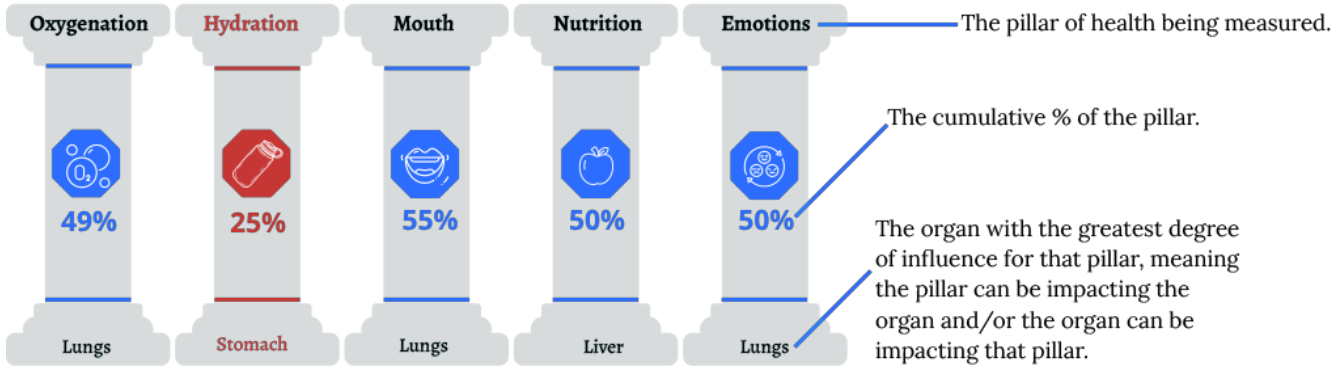

HEALTH PERCENTAGES (%):

For purposes of this report, **50%+ is good**, so the items **below 50% are the ones to focus on supporting**.

PILLARS:

The pillar highlighted in RED is the one with the lowest cumulative % score based on your voice results. This report measures 5 Pillars of Health.

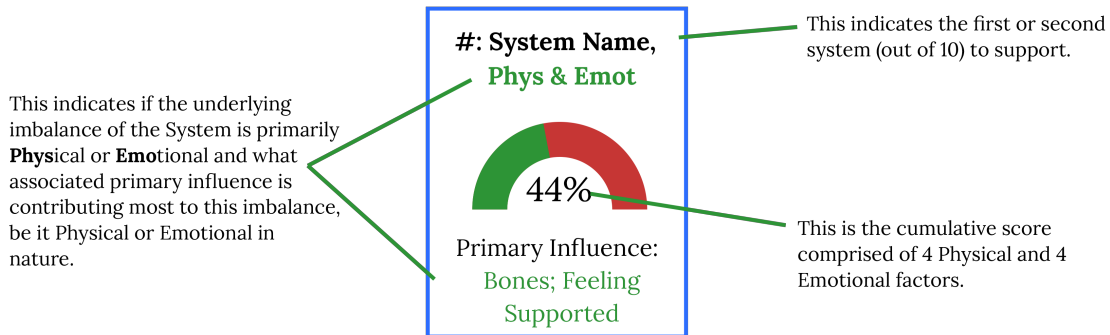

EXAMPLE

SYSTEMS:

This report highlights the 2 SYSTEMS with the lowest cumulative % for you, out of the 10 total Systems measured.

EXAMPLE

10 SYSTEMS MEASURED

- | | |
|----------------|-------------------------|
| 1. Circulatory | 6. Musculo-Skeletal |
| 2. Digestive | 7. Nervous |
| 3. Hormone | 8. pH Environment |
| 4. Immune | 9. Respiratory |
| 5. Lymphatic | 10. Skin, Hair, & Nails |

Report Terminology (cont.)

MOST IMPACTFUL FACTOR:

This is the **1 ORGAN that is impacting the greatest number of systems** at once. This report measures 30 Organs, and some are specific to male (M) or female (F). What your specific Most Impactful Factor is and ways to support it can be found on page 6.

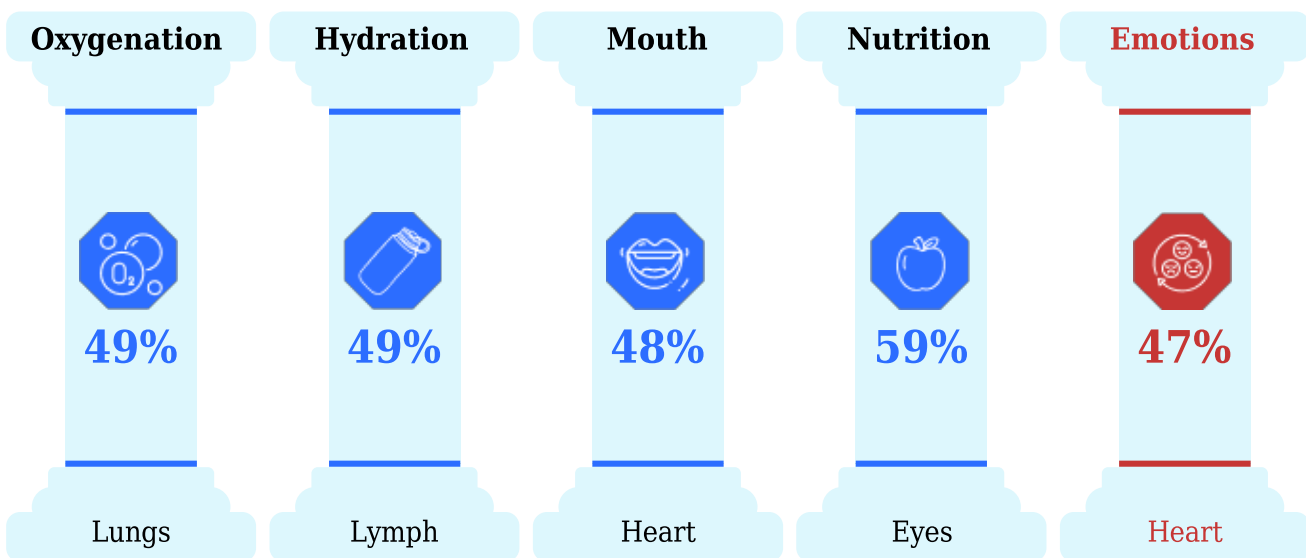

30 ORGANS MEASURED

- | | | |
|---------------|----------------------|----------------------|
| 1. Adenoids | 11. Gallbladder | 21. Prostate (M) |
| 2. Adrenals | 12. Heart | 22. Sinuses |
| 3. Appendix | 13. Kidneys | 23. Small Intestines |
| 4. Brain | 14. Knees | 24. Spleen |
| 5. Breast (F) | 15. Large Intestines | 25. Stomach |
| 6. Chest (M) | 16. Liver | 26. Testicles (M) |
| 7. Cranium | 17. Lungs | 27. Thymus |
| 8. Diaphragm | 18. Ovaries (F) | 28. Thyroid |
| 9. Esophagus | 19. Pancreas | 29. Tonsils |
| 10. Eyes | 20. Pineal | 30. Uterus (F) |

5 Pillars of Health

The Pillar of Health you need to support most right now is **EMOTIONS**, which is impacting the **HEART**. The heart represents your center of love and security. Long-term heart issues can stem from ongoing lack of joy, lack of love, lack of feeling safe, or a strong belief that stress and strain are normal states of being.

Notice that **Heart** has come up **2 times**. Review:

- How Mouth impacts the Heart - [Click Here](#)
- How Emotions impacts the Heart - [Click Here](#)

To learn more about how each organ you see connects to the associated pillar, then [Click Here](#) to go to the **Glossary of Terms**.

Systems of Health

1: Lymphatic, Phys & Emot

44%

Primary Influence:
Circulation; Allow Flow

Possible Effects of Imbalances:

- Swelling in Extremities
- Varicose Veins
- Poor Wound Healing
- Numbness or Tingling
- Reduced Exercise Tolerance
- Cold Hands and Feet
- Frequent Leg Cramps
- Heavy or Achy Legs
- Fatigue
- Frequent Bruising

Potential Sources:

Heavy Metals Like Lead From Old Pipes, Pesticides From Agricultural Runoff, High Salt Intake Causing Fluid Retention, Pollutants Like Particulate Matter From Vehicle Emissions.

Use a Swelling and Skin Indentation Self-Check to explore your Lymphatic at home. For detailed instructions: [Click Here](#)

2: Musculo-Skeletal, Phys & Emot

46%

Primary Influence:
Ligaments; Feeling Stability

Possible Effects of Imbalances:

- Ligament Pain
- Bruising
- Limited Mobility
- Tenderness
- Decreased Range of Motion
- Swelling
- Instability
- Stiffness
- Weakness
- Joint Dysfunction

Potential Sources:

Lead From Contaminated Soil, Excessive Alcohol Consumption, Cadmium From Batteries, High Sugar Intake, Nutrient Deficiencies (Vitamin C).

Use a Joint Stability And Ligament Integrity Assessment Test to check your Musculo-Skeletal at home. For detailed instructions: [Click Here](#)

Conclusion & Suggestions

For a list of ALL RESOURCES - [Click Here](#)

Start by supporting the Most Impactful Factor: **Heart (impacting the System(s) as follows: Hormone, Respiratory & Circulatory)**

- Start your day by preparing a cup of hawthorn or hibiscus tea. While the tea steeps, take your CoQ10 and magnesium supplements. Once your tea is ready, sit in a comfortable spot, either inside or outside, and spend 5-10 minutes writing down what you're grateful for. Repeat this gratitude writing practice in the evening.

Now that you have been supporting your Most Impactful Factor for a week, it is time to support your Pillar-Organ Connection: **Emotions-Heart**

- Foster connections with loved ones through virtual or in-person communication that contributes to a sense of belonging. Practice heart-focused meditation or mindfulness exercises emphasizing compassion and gratitude. Include foods like berries and beets in your diet. Look at your self in the mirror every morning and say "I Love You", to your self.

Now support the following System: **Circulation within Lymphatic**

- Consume 1/8 teaspoon of cayenne pepper mixed in warm water or juice once daily.
- Take 5 pellets of boiron hamamelis 30C homeopathic under the tongue twice a day.

Finally, support the following System: **Ligaments within Musculo-Skeletal**

- Drink 8 ounces of horsetail tea (1 teaspoon dried horsetail steeped in hot water) once daily.
- Take 2 drops of rock water bach flower remedy in water, three times daily.
